Basic Count Singing

Count singing can help you understand where you are in time in a piece of music. Here are some basic guidelines.

First look at the time signature. In this book, we’ll be focusing on 3 time signatures.

![Time signatures](image1)

The bottom number means the quarter note gets the beat. The top number tells us how many beats are in a measure.

Count Singing just means we will sing the rhythm we see. If we see four quarter notes we sing:

```
\[1\quad 2\quad 3\quad 4\]
```

A half note lasts for two beats, so if we had a measure with one half note and one quarter note, we’d sing:

```
\[1\quad -\quad 2\quad 3\quad 4\]
```

Notice that I wrote a dash between beats one and two to indicate holding the note lasts for two beats. But we’d still just be singing 1 2 3 4.

20 Exercises
In Rhythmic Reading Level One we will cover:

- Quarter Notes
- Half Notes
- Dotted Half Notes
- Whole Notes

The following time signatures will be used:

- The four on the bottom represents a quarter. That’s the note that “feels” the beat.
- The number on the top represents how many beats are in a measure.

- Quarter Note = 1 beat
- Half Note = 2 beats
- Dotted Half Note = 3 beats
- Whole Note = 4 beats
When writing out the counts, use a dash to count notes of longer duration.

Look at the top number to determine the number of beats. Any combination of notes can be used as long as it's not more than the beats indicated in the time signature. Here are some examples of 4/4 time.
